Firemen Want Moon

Ask for 40% Increase in Wages

City Council Gave Them 6-Day Week

When you read the nice propaganda of the San Diego AFL closed shop union firemen you imagine that the poor fellows are overworked, underpaid and are facing the poorhouse when they leave the department. They are taking you this week through the firehouses and filling you with "goodwill" to stick your hand in your pocket and raise their wages 40% in one swoop. And if you do not stop to think and investigate all the slush they are handing out, you will be sucker enough to fall for it.

The city council gave the firemen a 6-day week effective July 1. Therefore there is no need of voting it into the city charter. The firemen are hollering for the 6-day week on the grounds that they are overworked, loafing at the stations, and they need a day each week to recover their appetite. But anyway, I asked the city council to give them the 6-day week and they have it.

Must Regain Appetite

To show you how hard it is on the firemen's appetite when they have to loaf 24 hours at a stretch at the firestation, some of them put in their day off in mixing concrete by hand and spreading it out on sidewalks and between curb and sidewalk, doing little chores for friends and neighbors, which is very healthy for them, accomodating to the neighbors, improves the looks of private properties and a very good thing all around, especially as it peps up the poor fireman's appetite after being overworked at twice the wages of a laborer, while loafing at the station.

A laborer on the city payroll gets $87 to start with and rises up to $109 per month and no more. A fireman starts with $148 and goes up to $185 at present. When the fireman retires he gets half pay, the laborer does not. It would cost the fireman **at least** $50 a month in premiums to buy himself a life time endowment of $90 monthly **after 20 years payments** and I am sure it would cost considerably more. Add this to the salary he gets and you can see how underpaid he is. His work is dangerous, so is the ditchdigger's. When the ditch caves in on him he is just as dead as the fireman, if a burning roof caves in and catches him. So far ditchdiggers have had more casualties than firemen, but they still do not get wages nearly equal to the exposure and the labor performed.

One need not deduce that we do not appreciate the labor of firemen and the protection they are affording the city, as well as the reduction in insurance rates. We have one of the best fire departments in the country. And I am working to keep it so.

Closed Shop Wedge

The purpose of placing the amendments in the charter is to sabotage the city charter and bring all city employees under the thumb of the labor racketeers. The firemen are the thin wedge to accomplish this. They expect a full turnout of organized labor to vote it in. This amendment does not belong into the charter, for in that case we must put the wages of all the other city employees into the charter also. We cannot give the firemen a preferred position merely because they are a closed shop AFL union.

And if all the city employees join the AFL to get into the city charter at the same comparative wages as the firemen, the AFL will run the city hall and the elected councilmen will have to take orders from the AFL and not be responsible to the taxpayers, because the AFL can tie up the city any day they choose, they did it in New York and in Chicago. They are running Seattle on that basis with Dave Beck, the city boss.

40% Increase in Wages Demanded

The city council gave the firemen a 14% increase in wages when it reduced their week from 7 days to 6 and did not cut their wages 14%. On top of that the firemen are asking for a 15% raise as outlined in the amendment they have on the ballot. A fireman gets $148 when he starts out and finishes at $185 as first class fireman. They are asking for a mimimum of $170 ending up at $200. The Chief gets $375, he wants $450.

14% and 15% adds up to 29%. **On top of this** the civil service commission plans to raise wages for all employees 8% and the **firemen have insisted** that this 8% be added on top of the 29% **if the people vote for the increase**. This actually will increase their wages **above the present wage** more than 40%. It will cost the city from $250,000 to $300,000 yearly.

Vote "NO" On Proposition 22

(Over KGB, Wednesday, 7:15 pm, April 9, 1941)

The proposition of amending the San Diego city charter, to raise the wages of the firemen 29% over what their base pay is today, will go on the ballot. Superior Court Judge Turrentine upheld the demurrer of the City to my complaint, where I was charging conspiracy to defraud on the part of the firemen in misleading voters to sign their petitions by misrepresenting the contents and the effect of this huge pay raise, while the rest of the city employees and the policemen are getting much less and they should be the ones who ought to be raised first. Judge Turrentine ruled that even proof of a conspiracy and evidence of it, with proper witnesses and testimony in court, would not invalidate the petition, but that I would have to allege the number of signatures which were attached by voters who were deceived. I could have easily written in my complaint the figure 8000 and alleged that at least 8000 signatures were void on the grounds of fraud, but to bring those witnesses into court it would take a year and a half of trial and would cost from $30,000 to $50,000. I told the court that I will not make a charge which I am unable to back up financially by proper testimony and for this reason I did not state the number of signatures which would invalidate the petition of the firemen.

Judge Turrentine expressed appreciation of my frankness and that I was honest enough not to fool the court's time away, since I did not have the $50,000 to pay the cost of such a trial, but he said under existing law that was the only way the court could stop the election. And the most important thing which he said in making his ruling was that until the legislature in Sacramento passes a law to correct this deficiency, taxpayers will have no protection in court to stop illegal expenditures of money in cases of frauds in circulating initiative petitions, even though such frauds were evident, because conspiracy in civil cases is not sufficient cause for issuing an injunction.

Vote for Axtell for Schoolboard

My sample ballot on the schoolboard candidates is arranged in alphabetical succession. It lists Axtell, Hale and Hardy. I am going to vote that way. I believe it is high time that we put some new blood into the schoolboard. Rev. John D. Axtell is a Christian minister and would be a good man to vote for to supplant Jake Weinberger. Jake was retired once and should have stayed retired. But the old gang put him back in. Recently Judge Robert Burch in deciding the case of Mrs. Beulah Dawson, city school teacher, exposed the methods used to cheat her out of her tenure rights, when the superintendent asked her to sign a resignation in order to re-employ her the fourth year. Such dishonest tactics give a bad example of citizenship to the school youth. Since the superintendent does what the board approves, it is high time that all teachers, civil service employees and the public in general unite in retiring at least one member of the board and elect Axtell in his place.

How J. P. Morgan & Co. Controlled Newspapers for England in 1917

For the moment consider how the American people were played for sorry victims during the first World War. The billionaire bankers of Wall Street, London and Paris took America for a ride. Now they are doing the same thing again. February 9, 1917—almost a quarter century ago!—Representative Callaway, of Texas, inserted in the **Congressional Record** the following illuminating statment:

"In March, 1915, the J. P. Morgan interests, the steel, shipbuilding, and powder interests, and their subsidiary organizations, got together 12 men high up in the newspaper world and employed them to select the most influential newspapers in the United States and a sufficient number of them to control generally the policy of the daily press of the United States.

"These 12 men worked the problem out by selecting 179 newspapers, and then began, by an elimination process, to retain only those necessary for the purpose of controlling the general policy of the daily press throughout the country. They found it was only necessary to purchase the control of 25 of the greatest papers. These 25 papers were agreed upon; emissaries were sent to purchase the policy, national and international, of these papers; an agreement was reached; the policy of the papers was bought, to be paid for by the month; an editor was furnished for each paper to properly supervise and edit information regarding questions of preparedness, militarism, financial policies, and other things of national and international nature considered vital to the interests of the purchasers.

"This contract is in existence at the present time, and it accounts for the news columns of the daily press being filled with all sorts of preparedness arguments and misrepresentations as to the present conditions of the United States Army and Navy, and the possibility and probability of the United States' being attacked by foreign foes.

"This policy also included the suppression of everything in oposition to the wishes of the interests served. The effectiveness of this scheme has been conclusively demonstrated by the character of the stuff carried in the daily press throughout the country since March, 1915. They have resorted to anything necessary to commercialize public sentiment and sandbag the National Congress into making extravagant and wasteful appropriations for the Army and Navy under the false pretense that it was necessary. Their stock argument is that it is 'patriotism'. They are playing on every prejudice and passion of the Amercian people."

That was in 1917. Is the pattern any different today? The only difference in 1941 is that the propaganda machinery is the most colossal in the history of the world. The American people are the victims of the greatest hoax of the ages.

And how do the publicity and public relations men of the billionaire banker interests figure in this propaganda scheme?

Consider the case of the fast-moving Mr. Willkie in the light of testimony submitted by an English propaganda expert, Sidney Rogerson. Mr. Rogerson is author of the volume, **Propaganda in the Next War**, which is one book of a set edited by the English military expert, Captain B. H. Lidell Hart. The complete set bears the general title, "The Next War".

Remember, please, Mr. Rogerson wrote these words before the present war began, in 1938. "One of the most effective methods of convincing allies and neutrals is to provide their propagandists with facilities to inspect and write up our war effort for themselves. This was a sphere in which we excelled during the Great War, and it is one for which we have a special flair on account of our ability to steer a middle course between rigid secrecy and open publicity . . . Since the aim of the propagandist is to make news and see that it is reported, how better can he do this than by allowing it to be reported by those whom he wishes to influence?" Mr. Willkie fits into that pattern neatly! He did not have to write up the news, however. The gentlemen of the press did a perfectly satisfactory job of that. As the erstwhile GOP candidate, he was news, and the press services missed no tricks in creating publicity as Willkie dashed from the air raid shelters to the drawing-rooms. Did tears come to the eyes of this Wall Street humanitarian? Ah, it was touching, indeed, and the press reported that the great tousled-haired barefoot boy from back home in Indiana nearly bawled when he viewed the misery in an air raid shelter. He was never caught crying salty tears over the plight of the undernourished, ragged and wretched "one third of a nation"—that job belongs to the gentleman playing the stellar role in Washington.

The financial tycoons of the House of Morgan, Andrew Carnegie—the Anglicized American—and the wealthy Englishman, Cecil Rhodes, all had one thing in common. **All of them have believed in the union of the United States with the British Empire.** Carnegie left much of his great fortune to promote propaganda looking toward that un-American Tory objective.

Cecil Rhodes, the Englishman, left a fortune to be devoted to educating America's smartest young college graduates to become Britishers in their viewpoint, and that explains his cold-blooded "philanthrophy" which found its expression in the Rhodes scholarships. With these few explanatory words, please note the brief remarks of Senator Burton K. Wheeler in the Senate March 8th during the debatee on H. R. 1776:

"Now let me read a letter I received the other day, being a copy of a letter which a gentleman wrote to Mr. Herbert Agar, editor of the **Courier-Journal** of Louisville, Ky. The writer comments upon a speech which I made."

Then followed pertinent excerpts from that letter. It was written by Mr. A. P. Whitside, Foristell, Mo., on January 13th.

"Dear Mr. Agar:

"As I was formerly a newspaper publisher, I think I see your point, and I am taking the liberty of writing you a letter that you as a newspaperman will completely understand.

"During the World War, I published a morning newspaper at Cape Girardeau, Mo. Two years before the United States entered the conflict, Prof L. R. Johnson, who was graduated from Oxford through a Cecil Rhodes scholarship, called on me for a business conference. Mr. Johnson was then the No. 1 British propagandist in Missiouri, but he was more than a propagandist. He was an authorized dispenser of British loot to Missouri newspapers.

"Professor Johnson informed me that Lord Northcliffe, then the most powerful newspaper publisher in England, was turning over the complete output of one of his Canadian paper mills to the small United States dailies for the duration of the war. He told me that he had recommended my paper for free newsprint and that his recomendation had been approved. All I had to do was to file my application with J. P. Morgan & Co., of New York, and print paper in car load lots would be shipped to me.

"I know it will come as a shock to you for me to tell you that I actually refused this boodle.

"Professor Johnson told me that the metropolitan newspapers had 'been taken care of' & were going to 'cooperate enthusiastically with the British'. Therefore, I would simply march with the crowds and wax fat as the parade got along." And please note the following paragraph from Mr. Whiteside's letter; the black-face type is supplied for special emphasis:

"After the war I learned that the British Parliament had appropriated $100,000,000 to buy control of metropolitan newspapers in the United States."

Twenty-four years bygone, this atrocious thing occured. Who is so childish as to believe that if it worked in 1917, J. P. Morgan & Company are not doing the same thing today?

Declared a legal paper of general circulation for the County and City of San Diego, by Superior Court order, January 15, 1932.

Entered as second-class matter March 27, 1931, at the postoffice of San Diego, California, under the Act of March 3, 1879.

"I shall know but one country. The ends I aim at shall be my Country's, my God's and Truth's. I was born an American; I live an American; I shall die an American; and I intend to perform the duties incumbent upon me in that character to the end of my career."
—Daniel Webster.

Roosevelt & Churchill Sacrifice Yugoslavia

Recent events on the world theatre give a true example of how Poland, France and England were egged into the war against Hitler by Roosevelt, against their own better judgment. The Zionists & International Bankers could not possibly bleed the U. S. A. white, till they had established a "world menace". So they went to work and financed Hitler, through Fritz Thyssen and the armament trust, to hire himself a Nazi shirted private army till he finally took over Germany. Then they financed him to outstrip every other nation in modern steel armaments as well as aluminum alloy Luftwaffe. They figured correctly that they were "priming the pump", and they did. In the meantime they packed the U. S. A. with unscrupulous politicians who have no sense of honesty, like Roosevelt, and planted Jews in key-positions, in the cabinet, the congress, the courts, etc. **They planned it that way.** With these men who never keep an oath, they proceeded to induce more and more unemployment in the U. S. A. creating one emergency after another since they control not only the Federal Reserve Bank but all large industries, except Ford. Then they went to work and financed and encouraged the CIO to create more havoc and industrial strife, put through the Wagner Act, placed communists in the NLRB and played heck with the U. S. A. to "soften" us up for the war.

In Germany Hitler succeeded with regimentation and armaments because the people were poor. America has to be reduced to the same conditions, then demoralized America is ready for war, regimentation, conscription and general confiscation of property as proposed in the LEE and MAY bills in congress.

England and France fought back internally as persistently against being involved in the war as we are fighting Roosevelt's bloody and treacherous schemes now. But they succeeded in egging Hitler to take Austria and Czechoslovakia where the Jews had been undermining and underselling German products by marketing them below Germany's cost of production. They forced Hitler to protect himself and when he started marching, then, the Zionists through Roosevelt made the small nations promises of help if they entered the war. That brought Poland into it. That brought France into it, that brought England, Belgium, Holland and Norway into it.

Roosevelt denied it as he always lies when he opens his mouth.

But in the case of Yugoslavia he played the same game openly because of the power of the lease-lend act. We can see now plainly how Yugoslavia was nedlessly sacrificed and butchered **to detract Hitler from invading England.**

WASHINGTON,—Any military authority around here who expected the Yugoslavs to hold out longer than three to six weeks from the start was considered an optimist by his colleagues. The longest possible period of resistance suggested even by a Yugoslav source was four months. But even six weeks of German absorption in the Balkan fighting could defeat the chances of an invasion attack on Britain until fall. Shortest night in the year is June 22, and the Germans must have the protection of darkness to make the effort.—Paul Mallon.

Protection Against Fraud; Initiative Petitions

To the Honorable, The City Council
San Diego, California.

Gentlemen:

As you most likely know I had filed an action for an injunction to prevent the placing upon the ballot of the amendment to the city charter of the Firemen's Proposition, No. 22.

The superior court ruled that unless I spend about $50,000 or more in court costs, process serving fees, witness fees, etc., I could not prove that the Firemen's petition contained sufficient fraudulent names to warrant an injunction.

Judge Turrentine in giving his decision said in effect the following: "At present there is no law which applies to amendments to city charters by initiative petition, as it applies to the state initiative measures where it prescribes a short title in order to properly inform the voters of the contents of the petition. Until appropriate legislation is passed the courts are powerless to remedy such a situation as the present one where a citizen would have to spend $50,000 to save about $10,000 from being illegally expended, were this a special election. While the court has sympathy with the plaintiff, Mr. de Aryan, who presented his own case quite ably, the courts can under existing laws afford no relief."

It is evident, then, that the Constitution of California should be amended to make the protective statutes of state initiatives and of city ordinances apply to the form in which charter amendments must be drawn up and safeguarded against fraud.

May I suggest that this council pass a resolution instructing the City Attorney to work out such constitutional amendment which may be forwarded to the legislative representatives from San Diego at Sacramento for placing on the ballot at the next general state election.

After all the work which I did in the courts we should at least gain something from the experience by carrying out the court's sugestion.

Sincerely yours, C. LEON de ARYAN.

Jews in Key - Positions

WASHINGTON,—Food prices are taking another price-hike in this land of plenty—and this time under governmental auspices. It's a cock-eyed situation. The **Henderson** defense price division has been trying to prevent industrial price advances while the government labor conciliators authorize wage increases which must cause some price increases.

What set this part of the farm program off on the new line was the British purchasing program. The British want pork, dairy products and eggs. We are short on these products and getting shorter.

So the surplus marketing administration has announced it will buy hogs at $9 per 100, pay 22 cents a dozen for eggs, 15 cents a pound for chickens and 31 cents for butter. (These prices are wholesale, not what the consumer will pay or what the farmer will get.).

You can read the results in the grocery bill.

Note—Author of the scheme was **Mordecai Ezekiel,** the official agriculture department schemer. The Harriet Elliott division protecting consumers in the defense commission approved it, but the name of the AAA's own consumer counsel, Don Montgomery, was conspiciously missing from the announcement.

FRIENDS URGE HARTLEY VOTE

"The thousands of friends of Paul J. Hartley know he is qualified to serve," say Hartley-sponsors urging his election to the San Diego city council.

A native son of the city, Hartley was educated in the public schools and is a graduate of the University of California. He is married, the father of four boys.

"Betterment of living conditions at low cost to taxpayers," is the Hartley platform. He promises service to citizens of all districts.

"Vote for Paul Hartley," say backers. "You'll always find his name among those who are building up the community."

Vote for Sewer Bonds

"There is virtually unanimous agreement among community leaders that passage of the sewer bond proposition on April 22 is one of the most important duties ever to confront city voters," E. A. Sutton, member of the Citizens Sewer Bond committee advisory board, stated today.

"San Diego has emerged," he pointed out, "from a rather complacent, though steadily-growing community into a city of metropolitan proportions. Existing sewage disposal lines were hot planned for a community of 250,000, and we are consequently feeling the pinch of inadequate facilities."

Sutton explained that passage of the bond issue will permit payment of the improvements over a period of forty years, rather than having to pay for them all at once.

"These improvements," he continued, "will benefit every section of San Diego, from La Jolla on the north to the city limits on the south, and from State College and Encanto on the east, to Pt. Loma on the west. Incorporated in the construction work will be a modern network of sewer trunk lines —about 56 miles of them.

"A 'yes' vote on this proposition is not a matter of choicc," he concluded. "A 'yes' vote is a necessity."

Over $7,500,000 Tax Collections

With payments far ahead of last year, collection of County and City taxes have well passed seven and one-half million dollars. This represents an increase of approximately $175,000 over the corresponding date of a year ago.

Improved business conditions and an apparent desire by many taxpayers to pay early to avoid having to stand in line at the cashiers' windows are given as reasons for the heavy payments.

The first installment of 1940-41 payments became delinquent on December 5th, after which penalties were added. Second installment becomes delinquent after April 21st, when further penalties will be added on any unpaid taxes.

Ordinarily April 20th, which is scarcely ten days away, is the delinquency date on second installment of taxes, but this year, owing to the 20th falling on Sunday, the delinquency rate falls on Monday, the 21st, or a week from today.

To be on the safe side either mail your remittance or make your payment at the Civic Center at an early date to avoid the last week's rush.

SAM A. CLAGGETT,
County Tax Collector.

You Are Damned If You Do and Damned If You Don't

The Straight and Narrow Path

Dear Mr. de Aryan:

I surely got a kick out of the Broom of March 31st. I was going to tip you off about Madam Washburn, as I too have crossed swords with that gal. She gave me hail Columbia because I woudn't allow her to run The Beacon Light.

Mrs. Washburn is not a constructive worker, but a tearer down; the good lady belongs in the Communist party, like a few others I could mention who want a brand of Americanism similar to that in Russia.

The letter from Lillian Carque is also very illuminating; I presume I shall get one also. I have pushed her husband's book consistently for many years; but if that is the way she is going to treat a real American, I shall refrain from publishing any more of her material.

Continue to hew to the line, let chips fall where they will. The way you handled these two ladies was a stroke of genius; you proved yourself to be more of an American then they, and more of a gentlemen than they were ladies. Would to God that every community had a man as fearless and as well grounded in fundamentals and principles, of not only Americanism but on the laws of life.

About 300 periodicals come to my desk every month, and from 10 to 15 books; so I think I am fairly well read and therefore competent to judge good copy when I see it. And I reprint more material from The Broom than from any other periodical that comes to my desk, for I have never come across a man so fearless in preaching the truth in a clear, understandable manner. If all newspapers in America fearlessly proclaimed the truth as you are doing, we would not be at war and therefore headed for bankruptcy.

Mr. de Aryan, you are scorned by the ignoramus, not by intelligent people; or, if they are intelligent, they are coerced by sinister minded people or groups. The city of San Diego is well blessed in having a man of your type courageously fighting their, and the nation's battle, in print and in the courts of your city. Mr. de Aryan, the day will come when you will be accepted for what you are, a real 100 per cent American, and will receive public recognition for the fearless stand you are now taking.

You and I know that only the truth can make people free; that is why you and I are trying to give people the truth through our writings. Not only are you a good American, but your brand of Christianity is far superior to that put out by any denomination that I know of; because you are well grounded in the teachings of the Master; and then have the courage to boldly proclaim and practice them; certainly a rarity anywhere in the world today, only a small handful of such exist, and San Diego is fortunate in possessing one of the few.

Knowing the Law as you do—I mean the Law of Nature, of God—you know you are invincible, for you carry the shield of righteousness, which is ample protection at all times. Righteousness exalteth a nation, the Good Book says; it also exalts individuals and cities when they have the courage to practice it. So I know you will not mind these yappy, snappy fox terriers as they snap at your heels, but will continue to bear witness to the truth, even as did the Man of Galilee.

In conclusion, please do not hesitate to call on me, when you need help that I am able to give. As for myself, your writings are an inspiration to me each week; when at times I feel almost crushed with the weight of the fight I am engaged in. I am inspired by that courageous Leo Editor of The Broom. May you continue in your splendid work.

Fraternally yours, WILLIAM KULLGREN.
Atascadero, Calif.

Let the Sun Shine

My dear Kullgren:

Thanks for your lovely letter, I appreciate it.

As to the two ladies, we married men understand them. It's no use fighting them; they never learn once their mind is set. It will take more than one incarnation and bitter experience to change their ways.

I never met Mrs. Washburn, but her letters speak for her. Still she is one of us who realizes the menace of over-running this country with Asiatic and Afro-white-negroids, letting them get into the key-positions. We must respect the truth of what she says and discount the rest.

As to Mrs. Carque, I used to eat with her at the same table at various meetings years ago and knew old man Otto Carque quite well, even though he looked to me like a baptized Jew, descendant from the days when Jews had to be baptized or forfeit their possessions, so they took the plunge. Business is business then and now.

I would not counsel you to boycott Lillian. She knows no better and reverted back to type, even though she is nominally a Theosophist. We must not descend to their level even where they do us dirt. What virtue is there in calling ourselves Christians if we cannot take the dirt and laugh it off! Instead of boycotting her, place her writings in a prominent position, as I am doing. They shall be judged solely on their own worth. The sun continues to shine on saint and sinner alike, therefore let it continue to shine and give her every chance to shine. Where she is of servive to mankind don't interfer merely because her good sense is limited to dietetics.

Sincerely, C. LEON de ARYAN.

Profit vs. Principle

April 4, 1941
4328 San Fernando Road,
Glendale, Calif.

Dear Mr. de Aryan:

I have never concealed the fact that I was born a Jew, though I have followed more or less assiduously for the past decade the Theosophical teachings. My mind gravitates to the occult or the more abstruse sciences. Hence the only phase of Judaism that interests me is its esoteric interpretation. Esoterically speaking, all religions are the same; their trunks, deeply embedded in the subsoil of truth, are identical; only their branches, leaves and trimmings are different.

For your information, the late Otto Carque was an ex-Catholic and the entire staff of Natural Brands, Inc., are non—Jews. You have my positive assurance that my own Jewish extraction did not even in slight measure influence the tone and spirit of my letter to you of March 27. In writing you as I did, I merely respected the wishes of my firm in view of the ill will created in the trade; hence I saw fit to comply with their request. The College that recently awarded me the Doctor of Science Degree is a non-Jewish Institution; indeed they were in no way aware of the fact that I write for the BROOM. So I was not coerced into action by any so-called "Jewish Dictatorship in the United States."

One closing word, however, in defense of Judaism: You are no doubt well aware that I am a profound student of anatomy, physiology, chemistry, hygiene and nutrition. The Jewish race, the Jewish teachings and the Jewish religion have contributed more than any other race, religion or people to the study of anatomy, physiology, hygiene and nutrition. Our atheistic doctors, if they would probe deeply enough into the origin of their findings in health, healing and dietetics, would be compelled to trace their knowledge back to the Old Testament; for the building of Solomon's Temple without hammer, tong and nails was really the building of the human body by the creative Gods or higher Intelligences in the Great Cosmic Life.

In all likelihood my own profound and conscientious probings into wholesome living and sane dietetics in this as well as in past lives may have something to do with my having incarnated into the Jewish Race. Let us therefore give Judaism credit for this one great and glorious contribution to human welfare in their teachings of health, hygiene and nutrition.

Should not those of us who claim to be so enlightened, including your good self, interpret Jesus, the Christ, not as an entity or individual that has lived and died, but rather as a state of consciousness or exaltation to which each and every one of us must aspire in our upward and onward evolutionary journey from life to life in the attainment of self-conscious Godhood? This is esoteric Judaism's true interpretation of the Christ, which is absolutely correct.

In teaching the child mind of the race, Priests and other holy men have been obliged to personify the Diety in a manner analogous to that of the Greek myths wherein the sun, moon, wind and fire, for example, were personified as Gods and Goddesses instead of forces and intelligence in nature. Nor is the Jewish Religion any more guilty of the dissemination of this false or rather misleading aberration of truth than any other religion. Esoteric Judaism acknowleges reincarnation as a fact in nature and the Deity as a Life Principle as unconfined as the air or space, boundless, endless, limitless, without form or human attributes.

As a Theosophist, you must recognize the unity of all life. Hence your casting an aspersion on any one race or people may be likened to the spanking of your own toe-nail. That race is just as much a part of you and of the great Universal Ocean of Life.. You are violating the principle of love and brotherhood by augmenting the spirit of hate, of which there is aplenty afloat in the world, and by alienating yourself in consciousness from any race of people.

Cordially yours,
Lillian R. Carque, Sc. D.
NATURAL BRANDS RESEARCH.

Editor's Note:—Lillian Carque is given to bragging, like all Jews do who wear stolen plumage. It is not true at all that "the Jewish race, the Jewish teachings & the Jewish religion have contributed more than any other race, religion or people to the study of anatomy, physiology, hygiene and nutrition." Speaking of our "atheistic doctors" one will find that the prevalence of atheistic medics are Jews, nominally, but atheists in fact and practice.

Instead of the Jewish race having contributed most and more than any other race to human welfare, as she says further down in her epistle, the contrary is true. There is no "religion" that has perverted religion as criminally as the Jews have. They keep the commandments only when it suits their convenience and make Jahovah order them to kill every male and every woman, except virgins which are kept for the use of Jewish soldiers.

The same thing in all other matters. The Jew being a bastard race, double and multiple cross-breeds between whites, negroes, yellow and dusk, has the aspirations of the white man, but the mind and instrument which is limited by their colored blood. Being children of lust and passion, they are materialists first, last and all the time, Viz. the fact that Lillian herself admits business reasons caused her to withdraw her contributions of scientific information from the BROOM. Now the truth is free for all, but the Jew looks to the profit side and to hell with truth when it does not profit the pocket book.

The leaders in religion, health and organic science of the human temple not made by hands, are the Iranians or Aryans, the Zoroastrians. The Jews have plagiarized and perverted to their filthy purposes the pure wisdom of the Zoroastrians in matters of religion, physiology, nutrition etc. In Genesis they say that God made man a vegetarian and then later on they give minute rules how "Jehovah" told them to murder animals and chop them up for food. For any perversion of all and every holy and true thing, just study the Bible and you will find that the Jew exalted his crimes and claimed "Jehovah's" sanction.

The Jews have commercialized hygiene, anatomy, etc. Look at Lillian Carque for the proof. Commercial profits come with her first.

Keep on studying the New Testament after you waded through the filth of the Old and you will find that Jesus goes after the Jews for their duplicity, treachery and hypocrisy and is being murdered by them for exposing it when they failed to silence Him by bribery.

But Jesus set the example for Christians to follow. He did not kill Jews or enemies. He stood up and took their abuse and rose above it, even though He was never slow in exposing them and giving them the most vitriolic tongue lashings recorded. Today Jesus would be classed as an anti-Semite were He to say again and again that **their father was the devil,** that they were born in lust and iniquity and there is no truth in them.

But Jesus did not hate them. It's the sinner who needs the Savior. He bore with them & even permitted them to drive the Roman procurator to order His crucifixion after they liberated Barabbas to pillage the country again. He placed His soul in the hands of God and leaves it to His eternal LAW to take care of the Jews.

In these days of passion and folly we must follow the example of Jesus. We must bring out the facts and tell the truth fearlessly and take the consequences. But individually we must not hate any Jew or persecute him, but do good to those who persecute us. In this generosity lies our victory over the poor, blind materialists who are not guided by ideals but by material, temporary gain.

Discriminatory Race Legislation

Hon. Paul A. Richie, Assemblyman
Sacramento, California.

My dear Mr. Richie:

I have heard the rumor that the legislature is preparing a bill to make it a criminal offense to say or publish matters which foment racial and class hatreds. Will you kindly inform me what there is to that rumor.

Should such a bill be prepared I wish to call your attention to a few fundamental principles and facts by which the legislators should be guided in drawing up such a bill that it may not result in a disguised censorship of the press for the advantage of certain unscrupulous and murderous elements against the wellbeing of the common American people.

It is quite evident that it constitutes racial discrimination to restrict certain localities to white residents as against colored people, be they negroes, Mongolians or Jews descended from Asia, Africa or Poland. Now such discrimination has been sanctioned by law, some of these people are not permitted citizenship by naturalization nor permitted to hold title to land, while in the case of negroes certain residence districts are reserved to whites. Nor can such legislation apply to the publishing of the fact that it is contrary to racial welfare of the individuals involved to intermarry with other racials, since it constitutes a clash of organic tendencies in the human body itself, aside from the spiritual and mental ideals, habits and ideas.

It is quite evident that the legislation is not aimed at protecting negroes, Chinese or Japanese against rising racial hatred since the matter has been dealt with appropriate legislation as to the rights of those involved.

Thus there is only one Asiatic, Mongolian and Afro-white group left who are clamoring for this special legislation. They are what is commonly called Jews, or in the slang language, Kikes.

Because they have been found out in Europe and are being chased out of there as they were condemned by Jesus Christ for precipitating a war with Rome and destroying Jerusalem and the Temple; because they never hesitate to incite to class and racial hatred and set nation against nation where they wormed into key-positions so that they are able to precipitate a war, sell bonds which are profitable to their world banking institutions and take mortgages on the taxpaying nations involved in the wars, they are now afraid that they will be found out even in the U. S. A. as the ones who have precipitated the present world struggle to profit in the same type of financial transactions; and to prevent the exposure and the profits accruing to them at the expense of millions of dead, maimed and tax ridden victims who are about to lose even their properties and business to the hordes of refugees, well heeled with funds from devasted Europe, this legislation is being proposed to muzzle the few fearless and honest American editors whom the Jews could not buy nor intimidate.

Therefore in the drafting of this type of discriminatory legislation against the welfare of the American people please be guided by the following considerations:

1. It is proper to forbid incitement to pogroms, riot, violence and boycott of Jewish firms, individuals and groups on mere grounds that they are Jews (on any other grounds there is sufficient legislation on the books already which gives them full protection against riots, pogroms and discrimination in business).

2. It is improper to forbid discussion of the racial ancestry of those Polish Jews who are Mongols and not whites, or of those Jews from Syria, Palestine and Africa who are descendants of the Salomonic and other Jewish concubines which were historically known to be negroes like the famous Queen of Sheba.

3. It is not improper to discuss the history of the banking Houses of the Rothschilds, Sassoons, Warburgs, Kuhn Loeb Co. or of Juan Marsh, the Jewish leech of Spain who promoted the last civil war in that unfortunate country for the openly confessed purpose of making a profit, as reported in Collier's.

4. It is not improper to protest against the hordes of refugees of Jewish, Mongolian and Afro-white extraction who are flooding this nation and are taking away jobs from native Americans.

5. It is not improper to discuss the facts contained in the Bible, Old and New Testament and in the Talmud, which clearly set out that non-Jews are not to be treated as "equals and neighbors" by the Jews but can be cheated, exploited, raped and killed, as long as the actions can be disguised so that the Gentile population is not dangerously incensed against the perpetrators.

6. It is not improper to point to the fact that our whole banking system is unconstitutional in that it gives actual coinage of money, which means creation of credit, to the private owners of the Federal Reserve Banks at the expense of all the taxpayers.

7. It is not improper to point out that more and more Jews are occupying key-positions in the federal, state and local offices and thus creating an unhealthy condition by which they control the policy of our government and its subdivisions.

8. It is not impropr to point out and discuss any and all matters by which the interest of the American people is jeopardized, due to their ignorance of the concerted aims and combinations, as well as conspiracies of Zionists and International Bankers to make this nation their satellite and reservoir of man power to reconquer Europe and impose their dominion upon all the world to fulfill the Jewish prophecy of Zion ruling over all the nations, as promised to the Jews in the Bible and which has been their aspiration ever since, which to accomplish they have tried ever since and which earned them the Babylonian captivity and restriction to Ghettos since time immemorial.

My dear Mr. Richie, in fine, I mean to say that I favor any and all legislation which will give the Jew the same protection it gives to

(Continued on page Four)

Discriminatory Race Legislation

(Continued from Page Three)

any resident in the U. S. A. regardless of creed or color. I favor any and all means by which the Jew will be equitably protected against discrimination merely because Rothschild and other Jews have financed and profited from world wars and still do and instigate them. Each Jew is to be treated on his own individual merit as far as the law goes.

But I am opposed to any legislation that proposes to stop us from knowing all the shenanigans by which world Jewry has already recorded its own nefarious acts in the Bible and continued them to this day even here in America to take control economically, educationally, politically and set brother against brother to profit from the ensuing strife.

If the Bill of Rights, of Free Speech and Free Press is to be negated to the well informed American writers and speakers who read history, past and present, and warn their fellow Americans to beware against old country diplomacy, treachery and exploitation; then good night and goodby America; the door is opened wide to the Asiatic and Afro-white hordes to take over our country and make us like it.

You can see from the example of Yugo-Slavia how Poland, France and England was egged into the war. The International Control at Washington told them that America will underwrite their victory, otherwise neither Yugo-Slavia nor Poland, nor France, nor England would have entered the war when they well knew they could not win it.

Who profits? The International Banker who is being donated the whole national debt of our country when the Federal Reserve Banks, owned by them privately, "buy" our billions of bonds with our own TAX MONIES for which we must pay interest forever after.

Sincerely yours truly,
C. LEON de ARYAN.

Public Enemies

"Though they do not know it, the great majority of Americans are public enemies, perhaps innocently so in most cases. They read the newspapers.

"In these 'advanced' times, **to lack a knowledge of fundamental economics borders on criminality.** Wholesale treason is just around the corner. Our **quack economists at Washington and ignorant politicians in Congress** were doomed to failure before they started. **They were installed and elected by a populace nearly totally ignorant of fundamental economics,** with no knowledge of the rent, tax, land, and money systems under which they live, the relations of these system to each other, and their effects on the people and their governments. . . .

"What would have happened in America had it not been for the rise of Hitlerism? What has been the effect of Hitlerism on employment? Can Washington and its hangers-on save their faces even with the invaluable and timely aid of Hitler, Mussolini & Co.? Has Hitler not been at least a temporary life-saver for the New Deal (and the old deal as well)? If and when Hitlerism passes on, what will the dealers then use as an excuse for their existence, their 'planning', for their (un)economic Frankenstein?

"Americans, the time has come to waken, to arise, to get up, to cease being your own public enemies. **You must acquire a knowledge of fundamental economics. In no other way can you save yourselves from yourselves. College economics will not do."**—J. C. Kipp.

If there be no faith in our words, or what use are they?

The hardest thing about getting along with disagreeable people is that you cannot let them know what you really think of them.

—o—

Jones was spending his summer holiday at a small seaside fishing village. Returning to his boarding house on the first day after a tour of the beauty spots, he got into conversation with a young fellow-boarder.

"Well," he said, "I have had my first look around and have at once been struck by the beauty of the place."

The young fellow looked a trifle dazed.

"Gosh, old chap," he said, "you're a quick worker. I was here three days before I found her, and she handed me a terrific wallop, too."

—o—

Time cannot remove kindly acts from a grateful heart.

One section of the 1940 General Motors annual report to its employes.

Stressing that "the defense job comes first," the annual report of General Motors to its employes for the year 1940 takes the form of a 20-page booklet illustrated with pictures, charts and pictographs, in which Alfred P. Sloan, Jr., Chairman, and C. E. Wilson, President of the Corporation, report to the approximately 250,000 "GM Folks" on the various aspects of the business.

"The nation's objective is to make and keep America strong," the G. M. executives point out. "More than ever the need is for productive might—an efficient and virile industrial system. The job calls for the best efforts of all; thus can we meet with confidence the responsibilities that face us today and tomorrow."

In a review of 1940 operations, the report gives credit to the entire organization, and to the many thousands of men and women in G. M. dealerships the country over, for the good showing made in 1940. Other sections of the report, in addition to the accompanying illustration, deal with such subjects as are indicated by the following headings:

Our Wage Payments Reach Highest Peak; There Were More GM Folks in 1940; Taxes Reach Record High; 398,000 GM Owners; Research Builds for Tomorrow; GM Folks Work Safely, Guard Against Uncertainties (dealing with plant safety records, healthful working conditions and employe benefit plans); Our "Know-How" With Tools—U. S. Asset.

In concluding the report, Messrs. Sloan and Wilson declare: "The record demonstrates that skill, experience and, above all, ability to work together, are an unbeatable combination. Our usefulness to the country—and therefore our usefulness to ourselves—will increase as we find ways of applying this combination still more effectively."

HEALTH-GERMS

By George Starr White, M. D.

VIVISECTION and "FOOD VALUES"

Today the "value" of foods is usually "discovered" in the great laboratories, by experimental feeding of various animals, notably the white rat. Certain foods are fed to these "scientifically-bred" rats and their condition watched from day to day. Many of these helpless white rats are cut up alive to see what the foods have done to the various organs of the rats.

Dr. Geo. Starr White

Just what the digestion of rats has to do with the digestion of humans, I would like some rat-man to explain. Rats are used in the laboratories, for the public has a horror of rats and do not "feel sorry" for the unfortunate creatures, when they are made to suffer. But don't be deceived, for other animals are used —thousands of dogs, cats, monkeys and even horses and goats—all for the sake of satisfying the perverted desire of laboratory sharps to make animals suffer and to cut up and mutilate them.

Remember that no animal, or human, has the same reaction when in pain, or when under an anesthetic, as when normal. Consequently all the "reactions" gotten by ripping open and mutilating animals is of no possible benefit to any on, except the "thrill-desire" of the sadist experimenter!

While visiting one of the largest New York laboratories where vivisection is carried on, I saw enough to make any humane person shrink and hide his face in shame. I called attention of the director, to the torturing that was going on by the various doctors present; and I was promptly held up to ridicule.

Dogs were strapped to their stretchers and opened up without any anesthetic whatever. If **honest** physicians and the public knew how ruthlessly animals are tortured in these institutions, they would rise in holy horror and crush it.

—o—

Ed Fletcher Will Not Be Intimidated by Labor Racketeers, says a headline.—Those fellows have no education. They were too raw. The medical racketeers are smoother. They scared Fletcher stiff by telling him that unless everybody gets a syphilis test, we all will become syphilitic and Fletcher pushed the medical dictatorship bill right through the senate. It's in knowing how to handle a superstitious ass.

Aid-to-Britain—plow under every fourth American boy.—Senator Wheeler.

—o—

GOODWILL REPORTS $9000 PAYROLL

Supt. Myron Insko of the Goodwill Industries reports for the quarter just ended a payroll of $9,208.19 which was more than $600 above the corresponding outlay for the first quarter of 1940. The increase he ascribes to the larger quantity of donations received from generous residents of the city and county. About sixty workers were employed daily during the quarter.

In addition to the work offered at the Goodwill plant, 207 outside jobs were found for workers who were unable to find opportunities within the organization.

Easter in America

(Over KGB, Wednesday, 7:15 pm, April 9, 1941)

Among the billion and so, living souls on earth, the American people represent the highest degree of practical Christianity in daily life. While we cannot claim to be a Christian nation in the true sense of the word, we find by comparison with other peoples, that we are the most Christian nation of them all. Of course, this is not much to brag about, but we are dealing with facts and not fancies and especially now, while life and death is in the balance, while we are arming for a death struggle, we must see things as they are so we will understand our own position. There is so much good faith in the American people that they cannot comprehend how anybody could deliberately foment a world war to enrich a few pockets from the huge profits to be made when nation after nation must float bonds to pay for armaments. The American people are intrinsically so honest, that they want to believe that their politicians will not deliberately mislead them into war; we want to believe in honesty in the other fellow and this wishful fancy has made of us a nation of proverbial suckers in the game of world chess which is being played with the lives of whole nations by those who move the pawns and the figures upon the chessboard of world economics. In every brush with old world diplomacy we have been skinned and have held the sack, because world diplomacy is intrinsically cruel and dishonest. It will have to be drilled into our heads to realize this basic dishonesty and cruelty and that we must not fall for fancy words and propaganda which tend to embroil us in foreign wars and the horrible aftermath.

The Evolution of the White Man

In the evolution of life upon the planet and the unfoldment of the human entity from the cannibal blacks, in the wilds of jungle continents, to such outstanding souls as Socrates, Plato, Jesus, Buddha and Zoroaster, certain steps are noted. In between the lowest cannibal and the great Mahatmas of humanity, the common bulk of humans find their place. From the brute the human being evolves slowly, through practice, experience and study, by enjoying or suffering the results of his good or bad activities, as the case may be. The earth is nothing but a training school for human souls.

Naturally, then, there was and still is a conflict in the human consciousness between the concepts of material force and spiritual precept. As the soul learns to trust in spiritual precept & to follow it in daily practice, man becomes civilized and rises above the brute. But this process is slow. The brute is hard to convince, he prefers to place his reliance on material force, on material possession, rather than invest his energies to **create better conditions** by putting an end to brutality and following reason as well as spiritual nobility.

But the power of man lies in his spirit, not in material possession. With the proper spirit, man is able to turn a wilderness into a paradise, and this has literarily happened in the United States of America. It took us only 150 years to do the work. We have outstripped all other nations combined, even though we are the youngest nation and even though in numbers we are only a small part of the white race on this planet.

This conflict between the higher spirit and the brute in men is still going on. It is the business of religion to awaken the intelligence of men to the appreciation of the possibilities dormant in everyone of us, to teach us that we are of the seed of the Creator Himself, therefore we have the power to create a paradise on earth and forever banish ignorance, disease, poverty and strife from the face of the earth. This is what it means that God is our Father and we are created in His Likeness and image. As His children we have the same powers to become co-creators with God. In fact we are His instruments here on earth; we are His representatives and for this reason, if we are wise we will attend to this most important business, namely represent His interests in the creation and the propagation of life on earth. That means that we will comply with His Designs, His Will and execute it; each in the place where we find that Providence has chosen for us to exercise our talents and our energies. In that manner, then, there is no conflict, but harmony, because each of us is filling his place, doing his job in harmony with the same Divine Rule of Intelligence; —and this is the Kingdom of God, on earth as it was conceived in the heavenly mind of the Creator.

The Messianic Promises

That men may not despair in the possibility of the paradise on earth, Divine Providence has seen to it that at all times, some daring spirits be born of woman, to show by example that spiritual truth is mightier than brute force; that material possessions in themselves are of relative value only and lead to the destruction of human qualities when the worship of the Golden Calf supplants the Golden Rule. Among such outstanding souls, the Great Master of Nazareth was a shining example of what we, as children of the LIVING GOD, must do to establish the Kingdom of God on earth and eliminate the rule of Satan. The word Satan, from the Greek Satanas, in proper English translated, means a Person who leads you into temptation to do wrong. The whole teaching of Jesus Christ is centered around obedience to the Will of God, which Will represents the highest possible Intelligence and Purpose. By adopting God's purpose in place of following the bent of brutal and shortsigted tendencies of mice and men, we can spare ourselves innumerable suffering and horrible experiences. And how that is to be done is shown in the Life of the Master of Nazareth. All we have to do is follow His example, practice the commandments in daily life and He prophecied that **we shall accomplish even greater things** than He Himself was able to accomplish in His short sojourn.

It is self-evident, then, why He warned us not to go to war; not to attempt to subdue evil by the same evil, because only by doing good to those who do evil can we disprove their power over us. Goodness must supplant evil and it can supplant it only as we do it in daily life.

That is why He refused to be drafted to go to war against the Romans when the rulers of the synagogue took Him upon a high mountain top and showed Him the expanse of the country He could rule as King of the Jews. "Get thee behind me, Satan!" was His reply, "for it is written thou shalt bow to the Will of the Lord, thy God only". As a result He was crucified upon demand of those whom He refused to lead into War. But they could not keep a good man down. When they imagined they had killed and buried Him, He confounded them all by appearing among them, proving the power of the spirit over brutal force.

MAZDAZNAN CONFESSION

(Master Thought)

I confess all the painful in matter to be the result of obstinacy on the part of substance through its processes of creations and evolutions, declining to yield to the peaceful operations of intelligence, thus introducing repulsion and impelling resistance.

I hold that all misunderstanding through the processes of creation and evolution is to be eliminated through the application of the higher intelligence, and that for this reason man must take up his work where the Spirit of God left it to our care.

I join the sentiments of our Blessed Mother as expressed through the ideal of Ainyathita, that **I am here upon this earth to reclaim the earth, to turn the deserts into a paradise, a paradise most suitable unto God and His Associates to dwell therein.**

democracy

By Charles H. Ingersoll
(Of Dollar Watch Fame)

Land and Freedom renders a great public service in printing an article on British landed history by Douglas J. Owen, for there is nothing more complex and contradictory than this basic issue, in an empire at the moment being threatened with extinction, and because of failure at her two points of test—world free trade & domestic free trade—land tenure.

Ingersoll

Immediately, this fine narrative reminds us of Frederick A. Howe's book, 'The City—the Hope of Democracy', for Mr. Owen tells how, in feudal times—the 12th century—the municipalities fought for rents or 'feus', as the only source of taxation, as now the London County Council and 235 other cities have fought against the dead hand of Queen Elizabeth that ended the only ancient example of economic soundness.

This tradition put with that of the free trade that built a 'democratic empire', are realities that make 'neutrality' a pretense. Traditionally, this makes England 'a great democracy'.

'England a great Democracy?' Yes, it stands alone as a democracy in the first two democratic taraditions: first, the feudal system of land tenure, wherein the social income, rents, were offset against the cost of the social activity, called government.

Second, a freedom of trade, which was the only way of accounting for the miracle of constructing the British Empire, that made loyal subjects rather than slaves, of a quarter of the earth's inhabitants.

That these basic systems of democracy were not concurrent, which would be necessary to make either successful, and that they have both now relapsed into the category of tradition, is tragic. Yet historians, like Louis Wallis, and propagandists, like Spencer Heath, who do justice to the feudal system, and try to sell the idea that landlords may still be trusted as administrators, should cooperate with Author Owen, and incidentally make the best of England's otherwise doubtful reputation as a democracy.

The doorman of our New York apartment house is the best authority I know on the war—based on prediction and what has thus far transpired. His present guess is that Hitler will wipe out London, and then quit or go on, according to conditions. If he quits, presumably England will turn on him and wipe him out. If he goes on, he may not be able to conquer the empire. But the doorman seems rather pessimistic as to the tragedy that will ensue in either case, more especially as to whether anything will be settled at the sign-up, more than was settled at Versailles.

The doorman doesn't know what they are fighting for and doubts whether any of them do. The war of justice is still undeclared—the war between those who produce all, with present and saved-up labor, and those who rob these grand divisions of labor of half their product. That is the brief, bloodless war of the future—perhaps a long way off.

What should organized labor do about war. This question seemed in a way to get answered recently, but conscription propaganda was too strong, so that now it may be academic. Some of the labor leaders took the realistic view that some individuals take—that hiring out to the USA on a dangerous job, should not also involve a pauper's wage. The manufacturer said, "We can't build war-baby plants while you scale down our profits to peace-time levels." "If Uncle Sam wants 15,000,000 of our most skilled and able-bodied wage earners he should not uproot them from their jobs and families, and make them march to fife and drum for a pittance," say the leaders.

Five Vicious Germans

(Continued)

"Can you tell me how long the lights will be off?", the question was asked a thousand times.

"No! No! No! We don't know," was the answer each time; each time being more and more emphatic; until at last the police sat and cursed the phone between calls.

Or perhaps it was some 100 percent American who had sat and looked out of her window, calling to report that someone who looked like a German had just passed her house. One old lady called and insisted that the police come out right away. She said she had just seen a man going south with a grip, that she knew he was going out to blow up the powder mills because he had his collar pulled up around his neck and his head was ducked down.

Of course, it won't do to print what the police said about silly old hens calling up about men going home from work, trying hard to keep dry in a driving rain; but they ended up damning the phone and wishing that it would never ring again.

A baby cyclone struck the town about that time, with a full grown cloud burst. The phone ceased to ring. From six till seven the police sat in darkness, save for a lantern and a candle; and, with each flash of lightening or roar of thunder, jumping and wondering if at last the blow had been struck at the powder mill. The minutes dragged into hours—it seemed. No word, no lights, no phone, while their nerves became ragged by silent watching and waiting. From seven to seven-thirty they waited in silence, each fighting his nerves; each afraid to reveal his secret fears to those about him. At seven-thirty the phone rang; a ghastly relief to the silence of the past hour and a half.

From a timid voice came the question:—

"Is this police headquarters? Could you tell me how long the lights will be out of order? I am here all alone and it is so frightful in the dark without the lights":

"H——! No!" the police snapped, "it has been out of order an hour and a half and we don't know when it will be working again."

A ghostly laugh by the others strenghtened their nerves for the next half hour.

Meantime, Miss Mary Garden, President of the Centerville Women's 100 Per Cent Club, sat at her window and looked across the canyon at the vacant barns and cabins and wondered if any of them might be the hidding place of German spies.

A light! A light! She was tempted to rush at once and phone the police, but her better judgment caused her to wait and watch. Without a doubt the light that now and then flashed on and off was in a vacant cabin across the canyon. German spies, no doubt. Her mind worked fast. She remembered that she had discharged her German gardener at the outbreak of the war and that just before he had left he had made some inquiries about the property across the canyon. It seemed like hours to her that she sat in the darkness and watched for the light again. She thought of her widowed sister's two little girls, ages 12 and 13, for whom she was caring, and wondered if the German gardener, in his desire to ruin the nation, would seek to destroy their lives. She knew they were upstairs, fast asleep, and felt certain that no one had entered the house. But she must forever be on guard.

As the town clock struck the hour of eight, the police jumped to their feet; a vigorous ringing of the phone told them that trouble was at hand. A voice, that of a woman, recognized by them as that of Miss Mary Garden, a woman of judgment, a real leader, called:—

"Come! Come! Come at once! Lights across the canyon in a vacant cabin. Three German spies trying to break into my home. I saw them creeping up thru the bushes just now, as the lightning flashed. O! hurry! Hurry! They will murder my children."

What sounded like the firing of a gun came over the phone—then silence. At last some amazing plot to destroy the city was being carried out. The police knew that Miss Mary Garden's gardener knew her complete history; they knew that he had been a trusted servant for fifteen years or more before the war and was not suspected until our relations with Germany were broken, of being unfaithful. They knew of the vacant cabins and barns across the canyon; of the easy escape to the river thru these; of the desire of the Germans to ruin America, to strike at once at its great industrial centers—and of course the powder mills were marked.

Every available man was called into service; no faster, madder, wilder run had ever been made in Centerville than the police made out to the home of Miss Mary Garden that night. Word spread like wild-fire. Germans who had not left town hid away for fear of being mistreated—the streets swarmed with men, women and children cried. At last a fearful plot was about to be carried out, now, it was merely a question of whether the police and soldiers could act in time to save the powder mills and the city.

The home of Miss Mary Garden was broken into by the police. They found her lying on the floor, the phone in her hand. She had fainted away from the excitement of it all. An investigation was made and she told them her story when revived. She had been sitting at her window. Across the canyon, in a deserted cabin, she had noticed flashes of light, as tho someone was signalling. For a long time she watched, when a flash of lightening revealed three men creeping up to her house thru the bushes. In her fright she had screamed, then ran to the phone.

The children were found in bed, fast asleep. From the room in the attic where the old German gardener had stayed, was hanging a long string with a powder-puff and a part of a note at the end. The balance of the note had been torn off. The rain had washed away a part of the remaining part of the note—but what remained read as follows:—

"M and I hav the stuff hidden away. Come tomorrow night."

(To Be Continued)

WHY THE NEW DEAL IS ARMING

The purpose of the **manufactured** crisis in American foreign affairs and resulting armament is disclosed in the **Protocols of the Learned Elders of Zion,** a document allegedly containing a plan for Jewish conquest of the Gentile world.

Protocol No. 7 states:

"If we (the Jews) allow the possibility of a general rising against us, **we shall respond with the guns of AMERICA** or China or Japan."

Indeed, they do! At the turn of the last century, Theodore Roosevelt, Sr., encouraged Japan to go to war against Russia where his racial brethren, the Jews, were said to be persecuted. To-day, the Jewish New Deal lends money and provides armament for the teeming millions of China to fight on the side of Jewry and its stooge, England.

Europe is now in the process of forever breaking the power of the international Jew. Against this general uprising, the Jews are preparing to use the guns of America.

Our country is made into a vast arsenal to provide guns **to fight Jewry's battle against Gentile Germany** and her allies—all in accordance with the Protocols. It is, therefore, clear that if it had not been for the Jews, war propaganda and preparations for a war of aggression would be non-existent here.

The above quotation from the Protocols seems to disclose the secret purpose of Roosevelt's warmongering foreign policy and why his government is rushing armaments.

Who Wants to Pay for it ?

(Over KGB, Wednesday, 7:15 pm, April 9, 1941)

I am continually receiving requests from all over the country for free copies of THE BROOM. Not only are various public libraries asking for it, but private individuals and groups of people or organizations. I am sending it free to the libraries, but I cannot afford to send it free to all those who write that they are too poor to subscribe but want to read the paper. The only way out I can see in this matter, is for these of you folks who can afford it, to contribute to a fund which I could use to defray the cost of such subscriptions. Here is a letter which came addressed to radio station KGB.

"Mr. De Airian, in Timely Comments, KGB, City.—Dear Sir: Have been litsening to your program now for a long time. And I admire you for your courage on the Radio. I have been thinking I would like to see a copy of that newspaper, the Broom. Could you send me a copy? And if it is a paper of my liking I will try to get it for 6 months or a year. I am only a poor woman and all alone. But I sure do like to listen to you on the radio, you are not afraid to tell them so! And this town as well as many places needs a cleaning up. Please send me a copy. Very sincerely, yours, a steady listener . . . " and then she signs her name and gives her address.

Here is another letter from New York city:

"Dear Editor: Your publication "The Broom" I find very interesting and informative. I would appreciate your sending the publication to me as I am interested in circulating it among my friends who are becoming interested in your work. Sincerely yours, . . . " and he signs his name and address.

And so it goes. People are interested, they want to read THE BROOM, they want to spread it around, but I cannot meet the printer's bill and give the paper away free, somebody has to pay for it. The subscription price is $2.50 per year; $1.30 for six months; 65c for three months. Address THE BROOM, East San Diego, California. If you had in mind to subscribe for your own use, now is the time to do it. You will find a better explanation of world conditions by reading THE BROOM than you can find in the daily press.

HELL and AMEN, by the unquenchable humorist, Frank C. Hughes of Squirrel Island, Maine. A book of letters and articles on religious superstitions, rackets and the New Deal. For sale at $2.50 Write to David de Aryan, East San Diego, California.
